

Countjobs Viewstabbar

Plugin Information

View countjobs-viewstabbar on the [plugin site](#) for more information.

This plugin shows a Views TabBar like the original one but it adds how many jobs has each view in every tab title.

Screenshots

Build Queue
No builds in the queue.

Build Executor Status

#	Status
1	Idle
2	Idle

Logger Console

Todo [1] test_view2 [0] test_view3 [1] +

S	W	Name ↓	Last Suc
		test	N/A

Icon: [S](#) [M](#) [L](#)

Usage

Go to **Manage Jenkins** -> **Configure System**. Then, in the **Views Tab Bar** item, select **CountJobs Views TabBar**.

Notes

The [DropDown ViewsTabBar Plugin](#) already implements an option to show the number of jobs in each view. This one, though, sticks to the Jenkins' classic look and feel.

Changelog

Version 1.0.0

* Initial Release
