

Email-ext Template Plugin

Plugin Information

View Email Extension Template on the [plugin site](#) for more information.

Older versions of this plugin may not be safe to use. Please review the following warnings before using an older version:

- [CSRF vulnerability](#)

This plugin allows you to configure templates for email-ext that can be reused across multiple jobs.

Check out and build

How to check out the source and build:

- `git clone git@github.com:jenkinsci/emailext-template-plugin.git`
- `cd emailext-template-plugin`
- `mvn clean install`
