

# DeployDB Plugin

## Plugin Information

View DeployDB [on the plugin site](#) for more information.

Triggers builds based on incoming [DeployDB](#) webhooks, and reports the results back to DeployDB.

## Setup

For now, please refer to the [README](#) on GitHub.

## Source code

Note: this plugin isn't hosted by the "jenkinsci" organisation on GitHub, but the infobox above does not make it possible to specify this. See: <https://github.com/lookout/deploydb-jenkins-plugin>
