

ClearCase Release Plugin

Plugin Information

View ClearCase Release [on the plugin site](#) for more information.

This plugin makes it possible to promote composite baselines or latest baselines to RELEASED promotion level for Clearcase UCM. The plugin extends the [Clearcase plugin](#). You can use a custom promotion level. The promotion operations are exposed with [Jenkins CLI](#).

Changelog

Version 0.3 (Feb 17, 2011)

- Add ability to promote automatically the composite and latest baselines to the RELEASE status.

Version 0.1 (Dec 7, 2009)

- Initial release
