

DumpInfo BuildWrapper Plugin

DumpInfo BuildWrapper Plugin

Plugin Information

View Dump Info BuildWrapper on the plugin site for more information.

Dumps vital information about the Hudson instance into the job log. This plugin is useful for historical and audit purposes, where you can see what versions of Hudson, slaves, and plugins were around at the time of a build.

Changelog

1.0 (released 2011-01-27)

- fully I18N
- initial implementation
