

Retry Failed Builds Plugin

Deprecated: This plugin has been removed from the Jenkins Update Centre

Please use the [Naginator Plugin](#) instead to retry a build after a failure.
Archived versions of this plugin remain available for download.

See also: [Periodic Reincarnation Plugin](#)

Plugin Information

No information for the plugin 'schedule-failed-builds' is available. It may have been removed from distribution.

Allows you to retry failed Hudson builds every n minutes.
The number of retries can be configured as well.
