

Google Calendar Plugin

Plugin Information

View Google Calendar [on the plugin site](#) for more information.

What's this?

This plugin publishes build records over to [Google Calendar](#).

Publish job status to Google Calendar 

Calendar URL 

Login

Password

Which builds to publish? All buils Only successful builds Only failing builds

This plugin needs to know your calendar XML feed address to push data to Google calendar. You can find this URL through the following steps:

1. Go to Google Calendar
2. Click the triangle icon on the right of the calendar you would like to use
3. Select "Calendar Settings"
4. Click on either of the two XML buttons and copy the link
