

jQuery UI Plugin

Plugin Information

View jQuery UI [on the plugin site](#) for more information.

This plugin is up for adoption. Want to help improve this plugin? [Click here to learn more!](#)

This plugin allows you to use jQuery UI on each view descriptions.

The screenshot shows a Jenkins interface with a search bar at the top right and an "ENABLE AUTO REFRESH" link. Below the search bar is a code editor containing the following code:

```
<script>(function($){
$(function() {
  $('#jquery-ui-message').text('Hello jQuery-UI!').resizable().draggable()
})
})(jQuery)</script>
<span id="jquery-ui-message" style="padding:10px; background-color:#FFD700">Hello jQuery UI!</span>
```

Below the code editor is a "Submit" button. At the bottom of the screenshot, the text reads: "Welcome to Jenkins! Please [create new jobs](#) to get started."

Warning

This plugin has been replaced with the [jQuery Plugin](#). Please remove this plugin from your installation.
