

# Step Counter Plugin

This plugin counts source steps.

This plugin bundles [stepcounter 3.0.3](#)

## Plugin Information

View StepCounter [on the plugin site](#) for more information.

## Pipeline example

- simply counting

```
stepcounter settings: [[encoding: 'UTF-8', filePattern: 'src/main/**/*.java', filePatternExclude: '', key: 'Java'], [encoding: 'UTF-8', filePattern: 'src/test/**/*.java', filePatternExclude: 'src/test/java/sample/*.java', key: 'TestCode']]
```

- output excel(xls) format file

```
stepcounter outputFile: 'sample.xls', outputFormat: 'excel', settings: [[encoding: 'UTF-8', filePattern: 'src/main/**/*.java', filePatternExclude: '', key: 'Java'], [encoding: 'UTF-8', filePattern: 'src/test/**/*.java', filePatternExclude: 'src/test/java/sample/*.java', key: 'TestCode']]
```

- output json format file

```
stepcounter outputFile: 'sample.json', outputFormat: 'json', settings: [[encoding: 'UTF-8', filePattern: 'src/main/**/*.java', filePatternExclude: '', key: 'Java'], [encoding: 'UTF-8', filePattern: 'src/test/**/*.java', filePatternExclude: '', key: 'TestCode']]
```

## Version history

### Version 2.0.0 (06/01/2017)

Pipeline support.

### Version 1.3.2 (03/03/2013)

GUI improved.

### Version 1.0 (02/28/2012)

Initial release
