

Sidebar-Link Plugin

Plugin Information

View Sidebar Link [on the plugin site](#) for more information.

Older versions of this plugin may not be safe to use. Please review the following warnings before using an older version:

- [Persisted XSS Vulnerability](#)

Add links in the sidebar of the Jenkins main page, view tabs and project pages. This simple plugin adds an `Additional Sidebar Links` section in the main Jenkins configuration page, with settings for link URLs, texts and icons. These links will be shown in the top-level Jenkins pages (main page, user list, build history, My Projects and other project view tabs). Sidebar links for particular jobs may also be added in the job configuration pages.

Change Log

Version 1.10 (Dec 22, 2018)

- Add support of Sidebar links for Jenkins Pipeline and other project types ([JENKINS-33458](#))
