

404 Error - Jenkins not running with Tomcat :

I have a problem when I build Jenkins with tomcat I'm using:

jenkins version : 2.129
tomcat version : 7.0.69

And this is the steps :

- 1-change port of tomcat
- 2-copy jenkins.war in tomcat/webapp
- 3-finally run tomcat

And this is the result :

État HTTP 404 – Not Found

type Rapport d'état

message /jenkins/

description La ressource demandée n'est pas disponible.
