

Pipeline Plugin

Plugin Information

View Pipeline [on the plugin site](#) for more information.

A suite of plugins that lets you orchestrate automation, simple or complex. See [the Jenkins website](#) for more details and documentation. Documentation on the Jenkins site:

- [How do I start with Pipeline?](#)
- [Pipeline Syntax Reference](#)
- [Pipeline Steps Reference](#)
- [Extending Pipeline with Shared Libraries](#)

Other information about Pipeline is [available in GitHub](#). Quick links:

- [Developing plugins for Pipeline](#)
- [Pipeline CPS Engine](#)
- [SCM step](#)
- [Pipeline demo Docker image](#)

Formerly known as the Workflow plugin. Originally inspired by the [Build Flow Plugin](#).
