

Apache HttpComponents Client 4.x API Plugin

Plugin Information

View Apache HttpComponents Client 4.x API [on the plugin site](#) for more information.

Summary

This plugin bundles the [Apache HttpComponents Client 4.5.x](#) library, which can be used by other plugins as a dependency. It allows managing library updates independently from plugins.

Documentation

See the plugin's GitHub Page: <https://github.com/jenkinsci/apache-httpcomponents-client-4-api-plugin>

Version history

See the plugin's [Release Notes](#).
