

Embeddable Build Status Plugin

Plugin Information

View Embeddable Build Status [on the plugin site](#) for more information.

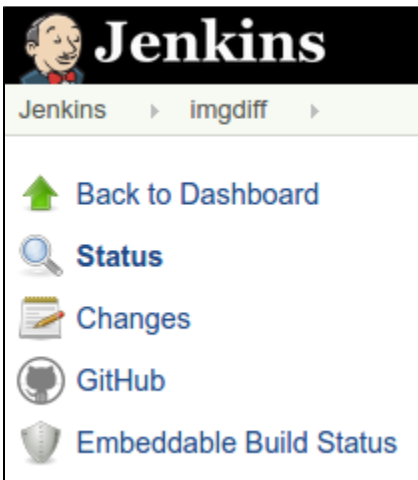

Older versions of this plugin may not be safe to use. Please review the following warnings before using an older version:

- [Reflected XSS vulnerability](#)

This plugin allows Jenkins to expose the current status of your build as an image icon badge via a fixed URL. You can put this URL into other sites (such as GitHub README) so that people can see the current state of the job (last build) or for a specific build.

Basic Usage

Once this plugin is installed, you'll see **Embeddable Build Status Icon** as one of items in the left menu navigation for a job or build of a job respectively.

When you click this icon, you get several links to an icon that shows the current Build Status for your job or the status of a specific build respectively. You can paste any of these URLs in other sites so people can see the current state of your build.

Open Issues

Key	Summary	T	Created	Updated	Due	Assignee	Reporter	P	Status	Resolution
JENKINS-33911	Allow Embeddable build status for Folders	↑	Mar 30, 2016	Mar 06, 2019		Thomas Döring	Shehzan Mohammed	✓	IN PROGRESS	Unresolved
JENKINS-28375	Provide additional badges (even for some plugins)	↑	May 13, 2015	Jan 03, 2019		Thomas Döring	Pablo Bendersky	✓	OPEN	Unresolved
JENKINS-13769	Add URLs for RDoc and Textile markup	↑	May 14, 2012	Jul 17, 2019		Dieter De Meyer	Dieter De Meyer	↓	IN PROGRESS	Unresolved

Changelog

2.0.1 (Apr 09, 2019)

 [JENKINS-56625](#) - Too many open file descriptors from embedded build status usage CLOSED

2.0 (Mar 04, 2019)

Final release (not further changes)

2.0-beta2 (Feb 07, 2019)

NOTE: The final v2.0 release is scheduled for Feb 14. If you have any issues with this beta please go to GitHub and report them.

- Added license (MIT)
- Variable renaming (see [#37](#))

•  [JENKINS-18408](#) - Add the ability to change the icons used CLOSED

2.0-beta1 (Jan 03, 2019)

- Fixed link encoding

•  [JENKINS-48874](#) - Markdown build badge does not show for a job with spaces in it CLOSED

•  [JENKINS-42452](#) - build badge icon unprotected URL escaping incorrectly CLOSED

•  [JENKINS-33953](#) - embeddable-build-status images are returned as 404 non-jenkins admins CLOSED

- Fixed handling for unprovided job argument for unprotected URL

•  [JENKINS-42656](#) - Throws nullpointer exception when not providing a job query string CLOSED

- Fixed animation state for running builds

•  [JENKINS-21954](#) - Support running status with correct background in the embeddable-build-status plugin. CLOSED

- Allow to select builds via Selectors (see [README](#))

•  [JENKINS-50368](#) - Allow status of last finished build CLOSED

•  [JENKINS-31414](#) - Status icon for pending builds CLOSED

•  [JENKINS-30098](#) - add latest "master" build status link (as contrasted to latest "pull request" build) CLOSED

•  [JENKINS-25008](#) - Add branch specific badges CLOSED

- Allow usage of customizable unprotected URL without job or build reference

•  [JENKINS-36798](#) - Status icon for specific build in queue CLOSED

- Allow to configure badges via pipeline scripts (see [README](#))

•  [JENKINS-31825](#) - indicate number of failed and successful tests CLOSED

- Allow to customize label (subject), status and color

•  [JENKINS-25384](#) - Custom label for builds CLOSED

•  [JENKINS-24089](#) - Please add embeddable images for last build date CLOSED

1.9 (Feb 06, 2016)

- Compatibility with pipeline builds ([JENKINS-28642](#))

1.8 (Aug 31, 2015)

- Badges for aborted builds ([JENKINS-19319](#))
- Fix ETag header quoting to respect RFC 7232
- Some minor "plastic" style image fixes

1.7 (Mar 24, 2015)

- New badge style: flat, with option to choose the old ("plastic") style ([JENKINS-26705](#))
- Option to omit view name from the URL ([JENKINS-26585](#))

1.6 (Nov 29, 2014)

- Support for build status badge for a specific build of a job ([JENKINS-25306](#))

1.5 (Aug 25, 2014)

- Added Cache-Control headers ([JENKINS-17028](#))
- New badge style based on shields.io ([JENKINS-23062](#))
- SVG badges for better high-DPI screen support ([JENKINS-21112](#))

1.4 (May 31, 2013)

- ability to expose badges even when Jenkins has no anonymous read access ([JENKINS-17798](#))

1.3 (Mar 05, 2013)

- missing icon

1.2 (Mar 1st, 2013)

- Added "unknown" image and use it for disabled and unbuilt jobs ([JENKINS-15510](#))
- Avoid using 302 redirects given that some browsers cache them ([JENKINS-17028](#))

1.0 (2012/05/09)

- Initial version
