

Hudson Vista Gadget

This Hudson Monitor gadget for Vista / Windows 7 sidebar provides an easy way to keep an eye on the status of your Hudson jobs.

Work with Hudson v1.92 and later

The screenshot shows a Windows Vista sidebar gadget titled "ActiveMQ". The gadget has a yellow sun icon and a "Link | Close [X]" button. The main content area features the "ActiveMQ" logo with a feather graphic and the URL <http://activemq.apache.org>. Below the URL is a table with two rows of job status information.

W	Description	%
	Test Result: 4 tests failing out of a total of 3,632 tests.	99
	Build stability: No recent builds failed.	100

On the right side of the gadget, there is a "Hudson" sidebar with a list of jobs: "ActiveMQ" (yellow sun icon) and "Ant-Build-Matrix" (red circle icon). At the bottom of the sidebar, there are navigation arrows and the text "1/1".

Installation

Download the gadget package file from <http://code.google.com/p/hudsonmonitor/>

On a windows system, simply double-click the downloaded file to have it register itself with Microsoft Gadgets. Use Gadget settings to get jobs from Hudson servers.
