

Next Executions

Plugin Information

View next-executions [on the plugin site](#) for more information.

Adds a widget in the sidebar with the next *build* date for all the scheduled projects. It also creates a column definition.

On DEV@cloud

Screenshots

A picture's worth a thousand words.

Sidebar widget (main)

The screenshot shows the Jenkins dashboard with a sidebar on the left and a main content area on the right. The sidebar contains navigation links like 'New Job', 'Manage Jenkins', 'People', 'Build History', 'My Views', and 'UI Samples'. Below these are sections for 'Build Queue' (empty), 'Build Executor Status' (two idle executors), and 'Next executions' (circled in red). The 'Next executions' table lists jobs and their scheduled times. The main content area features a 'Todo' widget with a table of job status, including columns for status (S), weather (W), job name (Job ↓), and last success time. Below the table are icons for size (S, M, L).

S	W	Job ↓	Last Success
		test	5 days 21 hr (#1)
		test2	N/A
		test long1 test test test tes	N/A

Changelog

Version 1.0.12 (2016-09-20)

- JENKINS-35476: Show pipeline/workflow jobs

- [JENKINS-30840](#): added column type for possible next executions.
- [JENKINS-36210](#): expose widget data through API

Version 1.0.11 (2016-02-04)

- Fixes [JENKINS-32652](#).
- Updated german translation

Version 1.0.10 (2015-02-01)

- Show items in the queue (only if they're gonna be there for more than a minute). See, for example, [Schedule Build Plugin](#).
- Fixed widget's different display modes in latest Jenkins versions.

Version 1.0.9 (2014-07-08)

- [JENKINS-16339](#) Jobname truncated in next-executions. Added 3 display modes to show the job name in the widget.
 1. Truncate: truncate job name if too long.
 2. Fixed width: job name wraps to next line
 3. Jenkins: same as other regular Jenkins' widgets; widget expands horizontally to show the job name.

Version 1.0.8 (2014-06-17)

- [JENKINS-23391](#) Widget don't collapse when "-" button is clicked.

Version 1.0.7 (2014-06-09)

- Added German translation (thanks to [phoenix384](#)).
- [JENKINS-23162](#) Added an optional widget to show the next polling for the SCM trigger. To enable it, go to the global configuration page.

Version 1.0.6 (2014-02-10)

- Added French translation (thanks to [damienfinck](#)).
- [JENKINS-21267](#) Added tooltip to show remaining time until next execution.

Version 1.0.5 (2012-11-07)

- Fixed [JENKINS-12676](#) (thanks to OHTAKE Tomohiro for the patch).
- Added a global configuration option to enable/disable filtering by view in sidebar's widget.
- Added a Computer's widget. It shows the jobs tied to a computer.

Version 1.0.4 (2012-02-25)

- Added a global configuration option to set the date format.

Version 1.0.3 (2012-01-13)

- Added ja localization (Thanks to Tadanori Nakagawa).

Version 1.0.2 (2011-06-21)

- Added column definition for the views.
- Shows only projects associated with the view.
- Disabled projects should not be shown.

Version 1.0.1 (2011-06-14)

- Added tooltip to project name.
- Links to projects
- Changed date format to fit same width.
- Shorter project name on widget

Version 1.0.0 (2011-06-09)

- Initial Release.
