

Java.net Plugin

Deprecated: This plugin has been removed from the Jenkins Update Centre

The Collabnet java.net infrastructure no longer exists.
[Archived versions](#) of this plugin remain available for download.

Plugin Information

No information for the plugin 'javanet' is available. It may have been removed from distribution.

What is this?

This plugin extends Jenkins for projects hosted on java.net by providing various capabilities, such as:

- **Generate issue tracker statistics through [issue-tracker stats tool](#).** Jenkins periodically updates reports in the background and make it available as one of the project reports. (See [a sample report](#))

Changelog

Version 1.3 (2009/12/29)

- Update bundled library
- Update uses of deprecated APIs

Version 1.2 (2008/05/23)

- Report regeneration wasn't done in a timely fashion

Version 1.1

- Normally Hudson infers the java.net project name from the SCM URL, but added ability to manually override this.
