Favorite Plugin

Plugin Information
View Favorite on the plugin site for more information.

ⓘ Older versions of this plugin may not be safe to use. Please review the following warnings before using an older version:

- Missing permission check allows anyone to change favorites for any other user
- CSRF vulnerability allows changing another user's favorites

This plugin allows you to mark a job a favorite.This is controlled via a list view column you need to add to a view. You can then click on a star to favorite or unfavorite a job. There is also a job filter to allow you to create a view that only shows your favorites.

Configuration

It is recommended you change your default view to either one you create, or follow the directions in Editing or Replacing the All View to allow the Favorite column to show up. Once you have the Favorite column, it will show a star that logged in users will be able to click to make a favorite. You can also add another view, and apply the "Favorites Filter" to show favorites only in that view.

Change Log

v2.3.2 (2018-05-21)

JENKINS-50603 Fix for bug where renaming a build makes it favorite for everyone
JENKINS-48136 Job name encoding fix
Add Chinese translation (https://github.com/jenkinsci/favorite-plugin/pull/19)

v2.3.1 (2017-10-20)

- JENKINS-44797 User config page broken with "ConversionException: No value specified for 'Class'"

V2.3.0 (2017-06-06)

- Fix security issue, see https://jenkins.io/security/advisory/2017-06-06/

V2.2.0 (2017-06-05)

- Fix security issue, see https://jenkins.io/security/advisory/2017-06-06/

V2.0.4

- JENKINS-39990 Fixes bug where the settings page becomes unusable

V2.0.3

- Updates to improve for Jenkins Classic theming

V2.0.2

- Fix for ABI compatibility

V2.0.1

- Favourites API returned unfavourited items

V2.0 @ 2016-11-04

- Introduce new public API for manipulating Favorite state
