

Tmp Cleaner Plugin

Plugin Information

View [java.io.tmpdir cleaner](#) [on the plugin site](#) for more information.

Jenkins and/or plugins can create some temporary files.
This plugin allows you to cleanup JVM temporary files.
This plugin will cleanup the directory `java.io.tmpdir`.

How to configure

TODO : configure it with the ui.

Currently you can configure some parameters with system properties when starting Jenkins:

```
recurrence cleaner execution : -Dhudson.plugins.tmpcleaner.TmpCleanWork.minutes=360
extra directories to clean : -Dhudson.plugins.tmpcleaner.TmpCleanWork.extraDirectories=/var/tmp
clean files not accessed since this number of days : -Dhudson.plugins.tmpcleaner.TmpCleanWork.days=1
```

Default values :

- minutes : 360
- extraDirectories : null
- days : 7
