

Gravatar plugin

Plugin Information

View Gravatar [on the plugin site](#) for more information.

This plugin shows [Gravatar](#) avatars instead of the generic user image.

	User Id	Namn	Senast aktiv ↑	På
	erik	Erik Ramfelt	N/A	

Ikon: [S](#) [M](#) [L](#)

Usage

Install the plugin on a Jenkins instance running at least 1.434, and it will automatically show Gravatars for the users that has an email and a Gravatar. No configuration except installing the plugin.

Caveats

The plugin will re-check every 30 minutes to see if any user has configured a gravatar. So if you have configured a gravatar and it does not show up, please wait at least 30 minutes before thinking its a bug.

Changelog

Version 2.1 (2014-05-05)

- Upgrade for making the plugin work in recent jenkins installations having mailer-plugin (no longer in core)

Version 2.0 (2014-05-03)

- Complete rewrite for better handling of large user bases (caching and lazy resolving)

Version 1.1 (2011-11-18)

- Initial version
