

# Google Login Plugin

## Plugin Information

View Google Login [on the plugin site](#) for more information.

Older versions of this plugin may not be safe to use. Please review the following warnings before using an older version:

- [Authentication bypass vulnerability](#)
- [Open redirect vulnerability](#)
- [Session fixation vulnerability](#)

## Google Login Plugin

This is a Jenkins plugin which lets you log in to Jenkins with your Google account. Also allows you to restrict access to accounts in a given Google Apps domain. Refer to the [README](#) in the plugin repository

## Changelog

Refer to the [CHANGELOG](#) in the plugin repository

## Issue tracking
