

Sumologic Publisher Plugin

This plugin allows users to send Jenkins Master, Slaves, Jobs information to [SumoLogic](#). Visit [SumoLogic Jenkins App](#) for more information on types of logs and data sent to SumoLogic.

Plugin Information

View Sumologic Publisher [on the plugin site](#) for more information.

Background

The aim of the SumoLogic publisher plugin is to provide ability to send Jenkins System and Jobs information to SumoLogic and Monitor the Jenkins system using the [SumoLogic Jenkins App](#). It also helps to monitor multiple Jenkins Master at a single place (SumoLogic).

Configuration

Refer to the [README](#) in the plugin repository.
