

Scoverage Plugin

Plugin Information

View Scoverage [on the plugin site](#) for more information.

This plugin allows you to publish [scoverage](#) results in Jenkins as a trend graph.

Configuration

Freestyle

1. Enable "Publish Scoverage Report" in Post-build Actions.
2. Specify the location where the `scoverage.xml` report is generated (e.g. `target/scala-2.10/scoverage-report`, `scoverage.xml`).

Post-build Actions

Publish Scoverage Report

Scoverage Report Directory

Scoverage Report File

Delete

Pipeline

```
step([$class: 'ScoveragePublisher', reportDir: 'target/scala-2.11/scoverage-report', reportFile: 'scoverage.xml'])
```

Example

Scala Code Coverage
