

# Micro Focus Deployment Automation Plugin

## Plugin Information

No information for the plugin 'microfocus-da' is available. It may have been removed from distribution.

This plugin allows Micro Focus Deployment Automation to be used in [Jenkins Pipelines](#)

## Features

The plugin currently provides the following adhoc build steps:

- Create Version
- Add Files to Version
- Add Status to Version
- Run Application Process

The steps can be used in "freestyle" projects but are designed to be used in pipelines.

## Requirements

This plugin is designed for Micro Focus Deployment Automation 6.1.3 or later.

## Setup

TBD

## Version history
