

Thucydides Plugin

Plugin Information

View Thucydides [on the plugin site](#) for more information.

A plugin for publishing web test reports created by [Thucydides](#).

Overview

The Thucydides plugin collects and archives the test output and summaries created by a Thucydides web test suite. The reports of the latest build are published under <http://JENKINS/jobs/YOURJOB/thucydides/>. An icon on the job status page links to this URL:

Click on this icon to see the Thucydides report, containing links to the individual test results:
