

Post-Jenkins World Hackfest 2016

- [Projects](#)
- [Logistics](#)
 - [Transportation](#)
 - [Schedule](#)
 - [Sunday, Sept 18](#)

#jenkins-hackhouse

Projects

The following is a fluid list of proposed projects to work on:

- Blue Ocean hacking [?](#) ** [Unknown User \(kzantow\)](#)
- Pipeline hacking [?](#) ** [Unknown User \(abayer\)](#)
- Rebuild the Update Site generator
 - [Unknown User \(danielbeck\)](#)
- Update/improve [account-app](#) to support board elections
 - [Unknown User \(rtyler\)](#)
- (Mini?) Project: Measure and Improve Pipeline Performance - [Sam Van Oort](#)
 - Benchmarking for pipeline storage/execution
 - Work on optimizing FlowNode/log storage ([JENKINS-30896](#))
- [Unknown User \(schristou\)](#) Improve performance of disk read/writes by switching some Jenkins apis to use Java 7 NIO.

Logistics

Transportation

On Thursday (September 15th) there will be a bus (organized by [Unknown User \(atong\)](#)) to take everybody from the convention center to KK's Summer House. The bus will start loading at 6PM in front of the Hyatt at the Convention Center. After that, you're on your own to arrange transportation from the house to the airport.

- Cars - the following people will have cars on-site
 - [Unknown User \(rtyler\)](#)
 - [Unknown User \(kohsuke\)](#)
 - [Unknown User \(abayer\)](#)
 - [Unknown User \(teilo\)](#)

Schedule

Sunday, Sept 18

- Breakfast on your own
- Hack hack hack
- Go home already.
